

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Kersio Lux - Kersio Equity, a sub-fund of Kersio Lux, Class I-EUR (ISIN: LU1877355138)

This sub-fund is managed by UBS Fund Management (Luxembourg) S.A. (the "Management Company"), which is a member of the UBS Group.

Objectives and investment policy

The objective of the Sub-Fund is to provide investors with a return generated by a diversified portfolio of large, medium and small capitalisation stocks traded on the major organised markets of the OECD. Under normal circumstances, the minimum investment in such stocks will be 80% of the Net Asset Value of the Sub-Fund.

Working on the basis of fundamental analysis and quantitative study, the fund manager combines carefully selected equities of various companies from various countries and sectors with the objective of exploiting interesting return opportunities while keeping the level of risk under control.

Investors may redeem their units on any bank business day in Luxembourg.

The income in respect of an accumulation share class is not distributed but is retained in the Fund.

Recommendation: This Fund may not be appropriate for investors who plan to withdraw their money within 3-5 years.

Risk and reward profile

More about this rating

- The risk category is based on return volatility over the last five years. The method used for this estimation depends on the type of fund.
- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may vary over time.
- The lowest category does not mean 'risk free'.

Why is this fund in Category 5?

The fund is mainly exposed in equities traded on the major organised markets of the OECD. The risk category is therefore driven by equity market fluctuations.

Further material risks:

- The limited use of over-the-counter instruments may expose the fund to residual counterparty default risk.
- A portion of the fund could be invested in less liquid instruments, particularly with small and medium capitalisation stocks. Their prices could fluctuate in certain market conditions.
- The use of derivatives to generate leverage could residually impact the fund returns.
- No Capital Guarantee exists for this product so investors can lose the whole of their investment.

Charges

The charges you pay are used to pay the costs of running the sub-fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charges	1.39%
-----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	none
-----------------	------

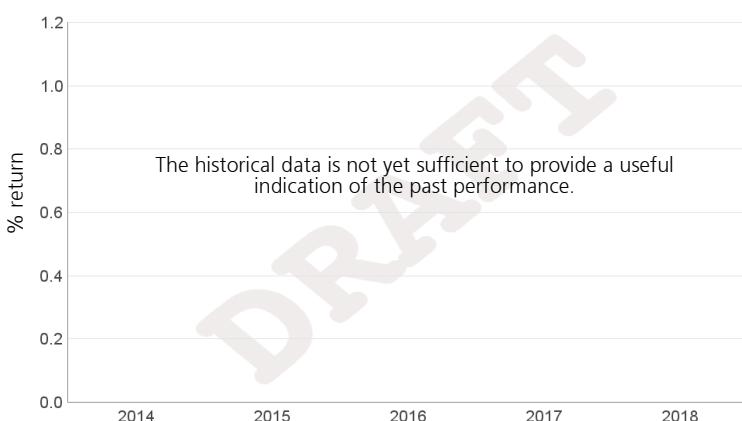

The **entry charge** and **exit charge** shown are maximum figures. In some cases you might pay less – you can find this out from your financial adviser.

The **ongoing charges** are estimated in the absence of historical data. When available, the ongoing charges are reported, and may differ from the estimate. They do not include:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling units in another collective investment undertaking.

For more information, please see the charges section of the fund's prospectus, which is available at www.kersio.com.

Past performance

The sub-fund was launched in 2017. The Class was launched in 2019.
