Website www.ubs.com/fml

The Commission de Surveillance du Secteur Financier (CSSF) is responsible for supervising UBS Fund Management (Luxembourg) S.A in relation to this Key Information Document.

This PRIIP is authorised in Luxembourg.

The Management Company is authorised in Luxembourg and supervised by the Commission de Surveillance du Secteur Financier (CSSF).

Date of production of the KID: 20 August 2023.

What is this product?

Type

Kersio Lux is an undertaking for collective investment in transferable securities (UCITS) incorporated in the legal form of an investment company with variable capital (SICAV) under Part I of the Luxembourg 2010 Law on undertakings for collective investment.

Term

The Product does not have a maturity date (the Product has been established for an indefinite period of time). The Manufacturer may terminate the Product early. The amount you will receive upon early termination may be less than the amount you invested.

Objectives

The Sub-Fund is actively managed and will invest in instruments from OECD countries. Under normal conditions, the minimum investment in such stocks will be 80% of Sub-Fund's Net Exposure to such stock can be lowered to 50% of the Sub-Funds Net Asset value under exceptional circumstances and on a temporary Asset Value basis. The Sub-Fund has a focus on Europe, with an exposure exceeding 50% of the equity portfolio on a regular basis without a specific European mandate. The Sub-Fund seeks to achieve a performance equivalent to the Eurostoxx 50 Net Return index (the "Index") or higher, however without being required to mandatorily invest in the positions included in the Index. The Sub-Fund will also invest outside the Index's universe, depending on market capitalization, geographical and economic criteria. Therefore the performance of the Sub-Fund may significantly deviate from the performance of the Index. The Index is only used for the purpose of performance comparison.

The objective of the Sub-Fund is to provide investors with a return generated by a diversified portfolio of large, medium and small capitalisation stocks traded on the major organised markets of the OECD where principally, i.e., up to 100% of its Net Asset Value are invested. Sustainability risks are not systematically integrated on the basis of the investment strategy and the type of underlying investments. This Fund may not be appropriate for investors who plan to withdraw their money within 3-5 years. Working on the basis of fundamental analysis and quantitative study, the fund manager combines carefully selected equities of various companies from various countries and sectors with the objective of exploiting interesting return opportunities while keeping the level of risk under control. The return of the fund depends primarily on equity market development and dividend payments.

The income in respect of an accumulation share class is not distributed but is retained in the Fund.

Intended retail investor

This fund applies to retail investors with a basic financial understanding, who can accept a possible loss on the investment amount. The fund is aimed at growing the investment value, while granting daily access to the capital under normal market conditions. With their investment in this fund, investors can satisfy medium term investment needs. The fund is suited to be acquired by the target client segments without any restriction of the distribution channel or platform.

Depositary

UBS Europe SE, Luxembourg Branch

Latest price can be found at www.ubs.com/fml

What are the risks and what could I get in return?

Indicator

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level. The past may be a poor predictor of the future and, hence, the actual risk of losing money may vary significantly.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The product may be exposed to further risk factors such as operational, political and legal risks which are not included in the summary indicator. Please refer to the prospectus for more detail.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average, and best performances of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		5 years	
Example Investment:		EUR 10 000	
		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	EUR 1 540	EUR 1 470
	Average return each year	-84.6%	-31.9%
Unfavourable	What you might get back after costs	EUR 7 440	EUR 10 790
	Average return each year	-25.6%	1.5%
Moderate	What you might get back after costs	EUR 11 210	EUR 13 260
	Average return each year	12.1%	5.8%
Favourable	What you might get back after costs	EUR 14 510	EUR 22 450
	Average return each year	45.1%	17.6%

The stress scenario shows what you might get back in extreme market circumstances.

The figures shown include all costs of the product itself. The figures do not take account of your personal tax situation, which can also have an impact on how much you receive back.

This type of scenario occurred for an investment between 2013 and 2023.

Unfavourable scenario: This type of scenario occurred for an investment between 2015 and 2020.

Moderate scenario: This type of scenario occurred for an investment between 2016 and 2021.

Favourable scenario: This type of scenario occurred for an investment between 2013 and 2018.

What happens if UBS Fund Management (Luxembourg) S.A. is unable to pay out?

Losses are not covered by an investor compensation or guarantee scheme. Furthermore, with respect to UBS Europe SE, Luxembourg Branch as depositary of the Fund, which is responsible for the safekeeping of the assets of the Fund (the "Depositary"), there is a potential default risk if the assets of the Fund held with the Depositary are lost. However, such default risk is limited as the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary is liable to the Fund or to the investors of the Fund for the loss by the Depositary or one of its delegates of a financial instrument held in custody unless the Depositary is able to prove that the loss has arisen as a result of an external event beyond its reasonable control.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The table shows the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods, we have assumed that the product performs as shown in the moderate scenario.
- 10 000 EUR is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	EUR 110	EUR 634
Annual cost impact (*)	1.1%	1.1% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 6.9% before costs and 5.8% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee.	EUR 0
Exit costs	We do not charge a redemption fee for this product, but the party who sells the product to you may do so.	EUR 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.0% of the value of your investment per year. This is an estimate based on actual costs over the last year.	EUR 103
Transaction costs	0.1% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	EUR 11
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	EUR 0

For additional information about costs, refer to the prospectus, which is available at www.ubs.com/fml

How long should I hold it and can I take money out early?

Recommended holding period: 5 Year(s)

The recommended holding period for this product is 5 year(s). This is our recommended holding period based on the risk and expected return with the product. Please note that the expected return is not guaranteed. The more the actual holding period deviates from the recommended holding period for the product, the more your actual return will also deviate from the product assumptions. Depending on your needs and limitations, a different holding period may be suitable for you. Consequently, we recommend that you discuss this issue with your customer service representative.

Investors may redeem their units on any bank business day in Luxembourg.

How can I complain?

If you have a complaint about the product, the manufacturer of the product or the person who recommended or sold the product to you, please speak to your client advisor or contact us at www.ubs.com/fml-policies
